1 Work Experience

Franklin Head Math Tutor: Fall 2013 - Spring 2015

Organize tutors to respective students for math help after school. Tutor from Algebra 1 to Pre-Calculus.

Pipeline Tutor: Fall 2016 - Spring 2019

After graduation, I continued to work at Franklin as a math tutor through the Pipeline program.

ASB Teaching Assistant: Spring 2017, Spring 2019

Alternative Spring Break (ASB) is a program where university students travel to towns in Washington work with students in elementary schools. A group and I went to Tonasket to teach fourth graders about compassion and empathy through writing about their experiences. The students made their stories into books and are published in a journal.

General Volunteer: 2016 - 2017

I had volunteered in festivals in the International District such as the Viet festival, New Years, Dragonfest, and Night Market. I work across different departments, making sure that there are adequate people helping out.

Ideathon Participant: Winter 2018, Winter 2019

The Ideathon is like a Hackathon, except we look at questions regarding education. This year, we looked at access for immigrant families. The participants, around fifty in total, were split into six groups. We worked two days to create and present a solution for the lack of access immigrant families have.
